

Message from Sean Peay, Dynanet CEO

Dynanet Corporation continues to evolve and make improvements to the organization from updating and maintaining our CMMI and ISO certifications to revamping our corporate presence. As you'll read in the first news story, we have made major updates to the Dynanet website, including overhauling the Services Page with a specific focus on five service areas – Application Development, Cloud Enablement & Migration, Legacy System Modernization, Data Analytics & Visualization, and Blockchain Enablement & Implementation. Dynanet's CTO Tiger Team, which we highlighted in our last newsletter, has officially launched and the initial planning activities are underway. We continue to achieve our goal of Social Responsibility with our staff focusing on "good works" in the community. I'm anticipating more great things throughout the year and appreciate the hard work that each of you put in every day to achieve our goals.

Corporate News

Dynanet Launches Updated Website

April 2018

We have updated the Dynanet website (www.dynanetcorp.com). The images throughout the site have been updated to be more reflective of Dynanet's direction. The Services page has been refreshed to focus on our revised and new service offerings. It includes an overview of "Our Methodology", "Application Development", "Cloud Enablement & Migration" and the new offerings "Legacy System Modernization", "Data Analytics & Visualization", and "Blockchain Enablement & Implementation". If you have any questions or comments, please contact Sherri Brown at sbrown@dynanetcorp.com.

DYNANET'S MISSION

Provide System Integration Services Focused on our Public and Private Customer's Mission that Solves Complex Business Problems.

DYNANET CORPORATE GOALS

Provide a dynamic and challenging environment as the employer of choice.

Ensure customer satisfaction through the delivery of quality people, services, and products.

Anticipate customer's needs through the use of innovative and cutting-edge approaches and solutions.

Be a socially responsible company.

Be a trusted business partner.

Dynanet Expanded its Defense Health Agency IT Services

March 2018

Dynanet has expanded its Defense Health Agency (DHA) health IT services to include Ports, Protocols and Services Management (PPSM). Dynanet is providing senior security consultants in support of the program mission. The PPSM's mission is to create standards to maintain strong, secure, uninterrupted access to DHA resources and critical applications. This will be accomplished in a manner that promotes network security, data protection, system interoperability, secure configuration management, continuous monitoring (including discovery and analysis), vulnerability management, cybersecurity risk scoring, and baseline configuration compliance verification.

CTO Tiger Team Underway

April 2018

Peter Anih, CTO

The **Dynanet CTO Tiger Team** will focus on creating and developing new capabilities for Dynanet leveraging the latest and greatest cutting-edge tools and technologies. The Tiger Team will have an opportunity to help shape Dynanet's Innovation Pipeline for the development of future projects and features. Here are a few of the current pipeline items:

- Blockchain
- Big Data Analytics
- CI/CD
- Cloud Automation

The CTO Tiger Team has been identified and the initial planning activities are underway. If you have any questions, please contact Peter Anih at panih@dynanetcorp.com.

Dynanet Blog

Did you know that Dynanet has a blog? We publish monthly articles on hot topics in the IT world. Past blog posts have included a focus on Agile and the SecDevOps Culture. To read the full blog posts, go to <https://dynanetcorp.com/blog/>

Centers for Medicare & Medicaid	Koti Thondapi	COBOL Programmer
	Roger Lipman	Systems Maintenance/Development Manager
Defense Health Agency	Chris Jones	Systems Security Engineer
	Royal Jones	Systems Security Engineer
Federal Aviation Administration	Alex Davis	Systems Integration Technician

Employee Profile

Travis Williams, DHA Systems Analyst

I recently joined Dynanet as a systems analyst supporting enterprise architecture efforts at the Defense Health Agency (DHA). I was born in Birmingham, Alabama, but spent most of my formative years in Germantown, Maryland. I went to Seneca Valley High School and then the University of Maryland, College Park. I received a Bachelors in Criminal Justice in 2004. After years of trying various Criminal Justice related jobs,

such as paralegal, I started a metalworking/rapid prototyping business with a friend, which is still a part time venture for me.

Around the same time I started the business I had my first child. I was a stay-at-home dad for about two years, while juggling the business. After realizing the unpredictable nature of entrepreneurship, and the financial demands of child rearing, I decided to go back to school. In 2016 I received a Master of Science in Cybersecurity from the University of Maryland University College (UMUC). Since

then I have been working part time as a security analyst, freelance writer, and parenting two boys – two and five years old.

In my spare time I like playing basketball, golf, and backpacking - usually on the Appalachian Trail. Working for Dynanet has been great so far, and I look forward to meeting all of you in the future!

Social Responsibility

Dynanet's Brown Supports the Susan G. Komen Race for the Cure April 2018

Sherri Brown, Director of Communications and Marketing, participated in Maryland's Susan G. Komen's Race for the Cure. It was a family event that included her three sisters and two nieces. The Susan G. Komen Race for the Cure Series is the world's largest and most successful education and fundraising event for breast cancer ever created. The series of 5K runs and fitness walks raises significant funds and awareness for the breast cancer movement, celebrates breast cancer survivorship and honors those who have lost their battle with the disease. To find out more about the local Maryland chapter, please visit <http://maryland.info-komen.org>.

ABOUT DYNANET

Dynanet Corporation has a long history of successfully assisting federal and state governments in accomplishment of their missions. The proof of our success is in the numerous commendations and awards we have been given and the list of partners who choose Dynanet as a business team member. A highly experienced and senior leadership team with both private sector and federal experience leads our talented and certified professionals.
