DYNANET

DYNANET'S MISSION

Provide System Integration Services Focused on our Public and Private Customer's Mission that Solves Complex Business Problems.

DYNANET CORPORATE GOALS

Provide a dynamic and challenging environment as the employer of choice.

Ensure customer satisfaction through the delivery of quality people, services, and products.

Anticipate customer's needs through the use of innovative and cutting-edge approaches and solutions.

Be a socially responsible company.

Be a trusted business partner.

Message from Sean Peay, Dynanet CEO

As we begin fiscal year 2020, it is time to reflect on where we have been and where we are going. As we look back, we can see that we continue to focus on our five key goals. We continue to demonstrate that we are a trusted source for our partners and customers and that we are a strong community partner. On the business front, we are expanding our technical solution offerings as demonstrated by our recent contract with OPM and the deployment of an automated Open Shift environment. You can read more about these initiatives below. I am excited about Dynanet's future and the work we do in support of our customers and community.

OPM Awards Dynanet Contract to Deploy an Automated OpenShift Environment November 2019

Dynanet has been awarded a Prime contract to support the Office of Personnel Management's (OPM) Office of Chief Information Officer (OCIO) to design, build, and deploy an automated OpenShift environment. Dynanet will partner with OPM Stakeholders to implement the OpenShift platform that will facilitate the orchestration for application development and maintenance automation.

"This is the type of project that really inspires us to strive for technical excellence and competency. Working with OPM IT and Mission/Business leaders, we will be a catalyst in shaping the way the agency supports the entire Federal Government." Peter Anih, Dynanet Corporation, Chief Technology Officer.

Some of the primary tasks we will be responsible for include:

- Increase IT Infrastructure Responsiveness and Scalability
- Support Legacy Application Conversation to the OpenShift Container Platform
- Increase the reliability and maintainability of OPM Application Environment

The Red Hat OpenShift Container Platform will enable OPM OCIO to extract greater value from development and operations teams, increase frequency of software deployments, and assist in faster application development cycles while lowering total IT operations costs.

The OpenShift environment that Dynanet will engineer allows OPM to take advantage of a technology that enables micro-service level application calls to support higher transaction volume in a distributed server environment. This project will set the stage for future modernization efforts throughout the agency. *"For over 11 years,* Dynanet Corporation *has been supporting OPM on various programs. We are excited to continue our partnership with OPM in support of this mission critical program.*" Sean Peay, Dynanet Corporation, Chief Executive Officer.

Dynanet CTO Speaker at YAFCEA
October 2019

Dynanet Corporation's CTO, Peter Anih, was invited to be a speaker at the YAFCEA Fiscal New Year Event (https://lnkd.in/epjD_nS). This event welcomes over 100 IT professionals from the Federal, Civilian, Health, and National Security government agencies to engage with their industry peers. Congrats Peter!

Dynanet One Pagers

Dynanet has updated our corporate one pagers to include an overall one pager and a one pager focused on our DevSecOps projects. You can get copies of these updated materials on our corporate SharePoint site. Is there a topic paper you want included in Dynanet's one page series? Send your ideas to Sherri Brown at sbrown@dynanetcorp.com.

Dynanet Blog

Did you know that Dynanet has a blog? We publish articles on hot topics in the IT world. Our most recent "Blockchain: Pervasive and Growing" is available on line. To read the full blog posts, go to https://dynanetcorp.com/blog/

Employee News

Please go to www.dynanetcorp.com and click on the Careers tab for more information on the Employee Referral Bonus Program and to view the open positions. You may also direct candidates to our website to apply online.

Where in the world is Dennis Barongan?
November 2019

Dennis Barongan, Dynanet Senior Director, continues to attend industry meetings to spread the news about all of the great work that Dynanet continues to do. He attended conferences hosted by GTSC including the USCIS Day 2019: Continuous Improvement of the U.S. Citizenship & Information Process; CDB Day 2019: Strategies for a Dynamic Operational Environment; and DHS HQ Day 2019. It has been quite a busy couple of months for Dennis as he gathers industry intelligence and shares the Dynanet story.

Social Responsibility
